Re: Tiger Eye Licensing, LLC.
Low Power Television
Auction No. 81 Window Filings
See Appendix A

Dear Sir:

On May 1, 2000, the Mass Media Bureau and the Wireless Telecommunications Bureau announced a July 31, 2000 limited auction filing window for certain Low Power Television (LPTV), Television Translator and Class A LPTV stations. By Public Notice released June 23, 2000, the Commission gave notice of the filing requirements, stating that parties intending to file during the window would be required to electronically submit an FCC Form 175 beginning July 31, and no later than August 4, and were also required to submit paper copies of the engineering portions of either FCC Form 301-CA or FCC Form 346. *See Notice and Filing Requirements Regarding July 31 through August 4, 2000 Limited Low Power Television/Television Translator/Class A Television Auction Filing Window, Public Notice*, 15 FCC Rcd 10854 (rel. June 23, 2000) (“*Auction No. 81 Filing Window Public Notice*”). In the *Auction No. 81 Filing Window Public Notice*, we informed applicants that “[n]o consideration will be given to any proposal for which the required engineering information is not on file by the close of the window.” *Auction No. 81 Filing Window Public Notice*, 15 FCC Rcd at 10856. On July 25, 2000, the Commission partially extended the window to permit the filing of the necessary portions of Form 301-CA and Form 346 until August 31, 2000.

Tiger Eye Licensing, LLC. submitted engineering filings during the LPTV auction filing window. It was originally determined that these engineering filings were submitted on September 1, 2000, after the filing window had closed. Therefore, the filings were returned as late-filed on February 5, 2001. Information submitted with a Petition for Reconsideration filed on March 12, 2001, however, demonstrates that the filings were in fact submitted by the August 31, 2000, deadline.

Therefore, the filings listed in Appendix A are hereby REINSTATED AND RETURNED TO PENDING STATUS. The file numbers have been changed to reflect that they were submitted on August 31, 2000..

Sincerely,

Hossein Hashemzadeh
Supervisory Engineer
Low Power Television Branch
Video Services Division
Mass Media Bureau

cc: Steven A. Lancellotta, Esq.
